CERTIFICATE OF AUTHENTICITY

|                |                                                                          |
|----------------|--------------------------------------------------------------------------|
| SUMMARY NO.    | RPT-000287                                                               |
| DESCRIPTION    | One Blue Sapphire, 8.02 ct.                                              |
| SHAPE/CUT      | Cushion Mixed                                                            |
| TOTAL EST. WT. | 8.02 ct                                                                  |
| MIN. COLOUR    | Vivid Blue                                                               |
| MIN. CLARITY   | Eye Clean                                                                |
| COMMENTS       | Grading and identification as mounting permits. Summary number engraved. |

The jewellery has been examined and evaluated according to the laboratory's established grading and assessment standards. The diamonds incorporated in the jewellery have been examined and graded based on their individual characteristics. The information stated on this certificate represents the characteristics, quality, and specifications of the jewellery and diamonds at the time of examination.
